All information and all technical specifications are correct at time to going press. Bianchi reserves the right to change them without prior warning. For further information, please see our website www.bianchi.com that is always updated. Bianchi recommends all cyclist to wear a helmet and to abide by the high way code.

TECHNOLOGY WITH SOUL

Bianchi has marked the history of cycling, with its bicycles that have led to victory many great champions.

Legendary riders such as Costante Girardengo, Tano Belloni and Fausto Coppi, striving heroes like Felice Gimondi or climbing artists like Marco Pantani.

Several World Champions, like Moreno Argentin, Gianni Bugno, Dario Aquaroli, Olympic Champions like Julien Absalon, World Cup winner like Leonardo Paez and many other successful athletes have ridden Bianchi bikes to victory in the races around the world.

And the history goes ahead with innovative models, designed by biomechanical laws and realized with the application of revolutionary technologies. To offer all cyclists a bike with added value. A **soul**.

Fausto Coppi, **Il Campionissimo**

Felice Gimondi, **World Champion**, Barcelona 1973

Gianni Bugno, **World Champion**, Benidorm 1992

Marco Pantani, **Il Pirata**

LATEST TECHNOLOGY INBIANCHI

Have Due Otto
928 SL IASP

Infinito

METHANICAL SL

WMP - Wrinkleless Molding Process

- Wrinkles in the material add more weight.
- We detect formation of wrinkles during the curing process to determine the actual characteristics of each frame and the location wrinkles may occur.
- We avoid wrinkles in the material by pre-tuning the thickness of the laminate and the weight of each frame.

NANO POWER TECHNOLOGY

- Nano material has the character of nano-scale size and high superficial content
- Adding Nano technology into the matrix system enhances cohesion superficial content between fiber and matrix.
- Micro cracks in the interlayer will decrease and further reduce extension of cracks.
- Extends anti-fatigue and enhance anti-impact of resin.

IASP - Integrated Aero Seat Post

TSR - Technology Section Reinforcement

- Full carbon fork with internal structural reinforcement TSR (Technology Section Reinforcement) to increase the lateral rigidity.

NANO POWER TECHNOLOGY

- Nano material has the character of nano-scale size and high superficial content
- Adding Nano technology into the matrix system enhances cohesion superficial content between fiber and matrix.
- Micro cracks in the interlayer will decrease and further reduce the extension of cracks.
- Extends anti-fatigue and enhance anti-impact of resin.

BAT and K-VID

- Usually a Road racing bike is stiff in all direction. High performance but not comfortable. The objective with these technologies is to obtain different stiffness behaviour under different loads/forces which improves comfort without any compromises of performance.
- High torsional stiffness on the bottom bracket area during pedalling gives excellent race performance
 - Low vertical stiffness under vertical shocks helps to absorb vibration Technology
1. Special lay-up and different material combination - carbon - Kevlar at critical points
 2. Special shape and design of the tubes.
 3. Vibration absorbing Kevlar material insert in specific areas.
- Performances improvements:*
- Lower fatigue – long distance more comfort
 - Better road adherence

TWT - Triple Wall Tube

- TWT construction allows us to lay-up the composite material plies to form 3 thin walls which are then molded together to form a bond-less monocoque laminate tube.
- We apply TWT construction to the Down and Top Tubes which are the most critical areas for stiffness and ride control
- TWT allows the frame to be more efficient, lightweight and stiff.

ERC - Embedded Reinforcement Construction

- This exclusive design feature molds and embeds reinforcement ribs along the nodes of whole frame structure.
- These reinforcements reduce frame twisting and contribute to frame stiffness and ride handling in the areas of the: head-set bearings, the Head Tube and the Bottom Bracket interface.

SAS - Shock Absorbing Stays

- Special designed stays with "S" shape and laminated with carbon and glass fibers, enhance the absorption of the vertical shocks on the rear Drop Outs without weakening the lateral and the torsional stiffness of the frame.
- The benefit of SAS is increased comfort without reducing power delivered to the rear wheel.

ISP - Integrated Seat post

- Unique dual option that also accepts a standard seat post

BB30

- Transfers more power

BIANCHI 2010 RANGE

	XTREME PERFORMANCE	HIGH PERFORMANCE	ALL PERFORMANCE	TOURING	STREET	SPECIAL	
ROAD	HOC	B4P	C2C DAMABIANCA			D 2 URBAN FIXED GEAR	pag 6
Exactly as there are different riders, there are also different ways to achieve your goals in cycling. And the Bianchi Road Range is ready to meet all your needs, with the attention and care, that is its distinctive feature ever since Edoardo Bianchi opened his doors many years ago.							
MTB	RACING	PERFORMANCE	OFF-ROAD				pag 30
The other road of Bianchi. Both the dirtiest and newest, but already rich in international success. Olympic and World Championships, to mark a technological supremacy which doesn't change when the terrain does. The best on offer for all sectors, from cross country to marathon riding.							
SPORT					CAMALEONTE		pag 46
If cleverness is the art of adaptation, then the bicycles of the Camaleonte range are clever. Like the animal bearing their name, they find their natural habitat in the city, but also on the week-end roads. For those who believe that two-wheels without an engine are a philosophy of life.							
CITY					T-ROAD S-ROAD		pag 52
The most ecological means to move throughout the city, without polluting the environment, without using up fuel. A lifestyle, an idea of individual mobility which Bianchi has been capable to realize, with a range conceived for commuting into the city and for leisure. With all Bianchi comfort and technology, dedicated to the urban rider.							
JUNIOR			JUNIOR 24" OETZI 24"		DUEL - YARD DRAGON - BIKERZ		pag 64
A little rider has to enjoy a great bike. Growing, kilometre after kilometre, together with the bicycle. The Bianchi Junior range will accompany them from the age of 3 onwards, both on and off-road.							

ROAD

HOC

HORS CATEGORY

Hors Categorie, means beyond limits. These models feature a geometry conceived from the **extreme** research of the **lightness-performances** ratio. They are ideal for the most evolved and demanding riders.

Models

NEW *Move Due O Ho*
SL IASP

1949, 1952, 1998. These are the years in which Bianchi won both the Giro and the Tour. The last digits, together, compose the name of a range of unique bicycles. The characteristics: superlight, stiff and reactive. The evolution for 2010 range: the integrated aero seat post (IASP). Used by Team Barloworld too.

ROAD B4P

Born for Performance. These bikes are very rigid yet light, they feature a racing geometry and are available with either carbon, titanium or alu-carbon frames. A **versatility** which reflects the personality of those who choose them.

Models

MONO-Q

Performance is its' strong point, rigid, reliable and with racing geometry. The production process maximizing the price-performance ratio.

1885 ALU CARBON

The year that "Edoardo Bianchi" created his workshop and a legacy. It is the name given to a model reflecting the spirit of it's origins but with up-to-date through advanced technology.

SS MATTIA

The flagship of the range is named after the team car which always followed the Campionissimo Fausto Coppi to his victories: The Bianchi S9 "Mattia". The frame is in ultra-light titanium alloy, that guarantee excellent rigidity and vibration dampening.

923 CARBON T-CUBE

A bicycle capable of punching way above its' class. The frame features Bianchi's "Tube to Tube" technology.

ROAD C2C COAST TO COAST

Coast to Coast. Long distances to be covered in the optimal position for maximum performance with minimum fatigue, guaranteed by Bianchi technology and a unique geometry. For riders who love to travel far.

Models

NEW *Infinito*

The name doesn't need explanations, bike without limits: optimal riding position, completely ergonomic, with the latest technology. Bianchi unique technologies as BAT and K-VID are used to reduce the fatigue and improved performance. NANO POWER TECHNOLOGY, instead, to reduce weight and longer lifetime. The geometry is unique, with a taller head tube for a relaxed riding position and a longer wheel base for improved stability.

VIANIRONE7ALU

In triple butted 7000 series aluminium throughout with hydroformed sections to ensure the best ratio between design and performance.

ROAD D|2

The best on all roads, whether tarmac, dirt or track. All the D2 bikes have select frames, special products for the specialists of cycle racing. From triathlon and time trials to the mud of cyclo-cross, up to the breathtaking thrills of the track. **For true men, women and riders.**

Models

PICO D2 CRONO MONO - Q AERO

Carbon monocoque frame with Nano technology. A super rigid model, lightweight and aerodynamic, performing in all its' details. From the Super Aero full carbon fork weighing 450g to the oversized and perforated chain stays, up to the horizontal rear drop outs.

CRONO TRIATHLON ALU

For fighting, and winning against the clock, in the saddle of an aerodynamic model with the frame made fully in aluminum alloy, with aero shaped tubing, featuring triathlon specific geometry.

CROSS CONCEPT CARBON

Specifically designed for cyclo-cross, it matches lightness and resistance. The frame is in carbon monocoque.

CICLOCROSS AXIS ALU

A 7005 series aluminium frame with butted tubing and specific tube profiles for cyclo-cross. Conceived to control vibrations and tame rough ground.

SPORT

CAMALEONTE

Like the animal bearing their name, they find their natural habitat in the city, but also on the week-end roads. For those who believe that **two-wheels without an engine are a philosophy of life.**

Models

camaleonte CARBON

The Sporty look, it features a frame using carbon fibres like the leading models of the Bianchi range, weighing only 1.20 kg.

camaleonte ALU CARBON

A frame made in 7000 series aluminium, with triple butted tubing, rear stays and front fork in carbon to reduce weight and improve comfort.

camaleonte ALU

Made throughout in aluminium, it features an exclusive Bianchi design, thanks to Hydroforming, a technique which allows us to obtain ultra-light sections, yet maintaining best comfort.

camaleonte SPORTCROSS ALU

Two versions, one for men and one for ladies', both with hydro formed aluminium frames, unique design that improves comfort, and a suspension fork with lock out.

CITY T-ROAD

Practicality with matching elegance. These are the main features of the T-Road models, with dedicated **frames characterized by both classic and sports designs**. But if you use a T-Road you will appreciate above all the reliability.

Models

VIALEABRUZZI

The name recalls the first, historical Bianchi seat in Milan. Tradition and innovation, in a comfortable and versatile fully equipped bicycle, suitable for moving around in the city.

CITY S-ROAD

Nimbleness, comfort and safety, with different geometries for both male and females, triple chainsets for easy pedalling and **fully equipped** with practical carriers and stands. For those who ride every day, and want to ride with style.

Models

SPILLO Diamante

In the Spillo range, we have the Diamante, Topazio, Brillante, Onice, Rubino and Turchese versions which are not just a city bike, they are "the" city bike, a concept created by Bianchi in 1990. The idea is simple and brilliant: to put at an urban rider's disposal all the technology involved in the sport, with a 7000 series aluminium frame and with the infinite possibilities to change speed. And this is not all, the bike is fully equipped for daily use: a large carrier, protecting mudguards and lights for riding the bicycle at night in total safety.

YARD 26"

Looks like the adult models but with geometry specifically for younger people. Design and colour with attention to new trends for the younger generations. All our bikes are tested to ensure quality and safety according to all norms within the industry.

JUNIOR ROAD and MTB

A little rider has to enjoy a great bike. Growing, kilometre after kilometre, together with the bicycle. The Bianchi Junior range will accompany them from the age of 3 onwards, both on and off-road.

Models

JUNIOR 24" ALU

A champion's bicycle small in scale, with an aluminium frame and all Bianchi technology, for the first experiences on road.

OETZI 24" ALU

Custom-made for young champions, from the frame geometry to the other components. To feel and become like a champion.

DUEL 24" DUEL 20"

A super sloping frame in 7005 series aluminium with square section tubes, because little riders are not that little.

YARD 24" YARD 20"

Frames with the correct geometry and components developed specifically for the younger rider. Attention about safety, quality but, overall on design and colour.

DRAGON 2 DRAGON 3

An indestructible frame, manoeuvrable and with a lot of fun in its DNA. For a game which has just only started.

BIKERZ

Special aluminium frames, dedicated components, total safety, because these bicycles are produced in compliance with strict regulations, and the greatest fun!

TECHNICAL CLOTHING

FREE TIME CLOTHING

HELMETS

BOTTLES

BOTTLE CAGES

HANDLEBARS TAPE

SADDLES

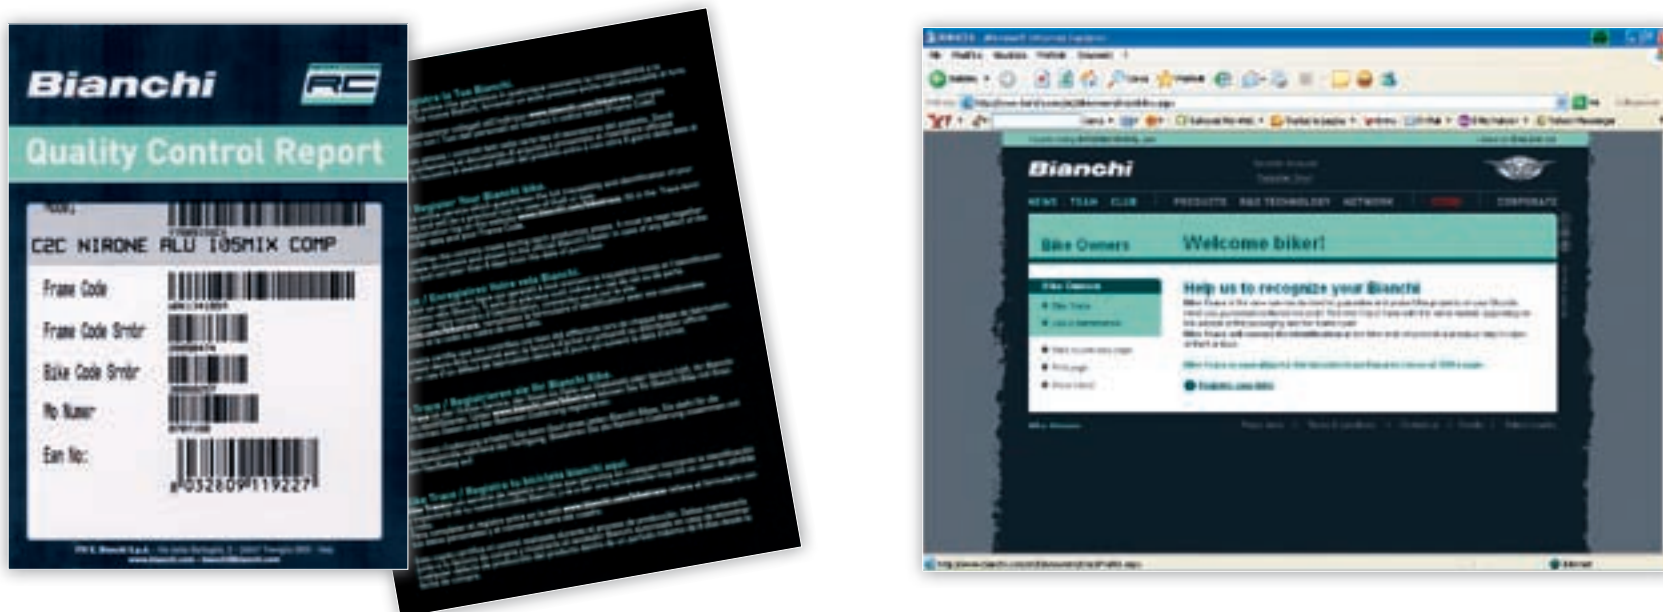

BAGS

PUMP

HOMETRAINERS

BIKETRACE

TO OWN A BIANCHI BIKE MEANS TO BELONG TO A BIG FAMILY. WITH THE BIKE TRACE PROJECT, FANS AND OWNERS CAN COUNT ON AN EXCLUSIVE TOOL WHICH ENSURES, AT ANY TIME, THE FULL TRACEABILITY AND IDENTIFICATION OF ANY BIANCHI RC (REPARTO CORSE) BICYCLE.

You just need to **log on the www.bianchi.com website**, click on the **Bike Owners** section and register your bicycle by filling in the Trace Form with your personal data and those of the frame.

The recording of this data will make it possible to trace back the history of any bike by monitoring the history of the text and also its 'sporting life'. The Quality Control Report coupon, which can be found in each packaging and includes all the necessary information for the product registration, is fundamental. In the event of loss of the coupon, it is however possible to find the necessary data directly on the frame itself. The frame code is marked on the bottom bracket of all the models, except for the carbon ones. For these last ones the frame code is on the internal parts of the left rear vertical drop out.

This service guarantees the total traceability of the bicycle providing a precious support in case of theft and loss.

THANKS TO BIKE TRACE YOUR BIANCHI IS YOURS EVEN MORE.

Box for stamp/label of the dealer

Infinito NEVERENDING FUN.

Infinito. Stay ahead.

Stay ahead of the pack with the latest model in the C2C family. The ultra-light carbon frame and forks make the most of nanotechnology. The new shape delivers exceptional ergonomics, which are bolstered yet further by BAT technology, and surprising comfort levels are achieved thanks to details such as the raised head tube and anti-vibration Kevlar inserts. Last but not least, the brand-new look features dedicated components that match the new design of the bike. It all adds up to infinite fun, on a bike perfect for any road.

Bianchi
